Good Exhibits at 16th Annual Show of State Horticultural Society.

Brattleboro, Nov. 9.—The second day of the three days' meeting of the 16th annual show of the Vermont State Horticultural hall, there was a good attendance at all of the sessions. Prof. C. D. Jarvis of Storrs, Conn., was unable to be present Monday night and was the principal speaker at the morning session yesterday. His subject was "Rejuvenating Old Apple Trees." His talk was illustrated with many stereopticon slides, showing what science can do in the way of reviving an orchard that has practically become useless and non-productive.

During the day many exhibits of apples were received and the officers of the society say that the indications are that the showings this year will be up to that of any year in the history of the organization. The fancy packing exhibits from the Grand Isle county growers and a similar exhibit by Windham county growers were an attractive feature of the showing of fruit.

The Codling Moth and its Control" was the subject of the talk by Prof. A. F. Hawes of Burlington, state forester, spoke on the status of forestry in Vermont, his lecture being illustrated with stereopticon slides.
